We repeat that Budock Parish Council strongly object to this application as per our previous comment.

This area has not been designated for development in either the Budock Neighbourhood Plan or the DPD - see the application comments -

Comment Date: Wed 15 Dec 2021 Thank you for consulting the Delivery Team.

The application does not fall within a Site Allocation, so on this occasion we don't have any comments.

The proposed scheme would reduce to nothing the physical, visual and perceptual gap between Falmouth and Budock Water, this coalescence is contrary to the aims of the Cornwall Local Plan and the NPPF.

CLP 2010-2030 1.10 "Cornwall is characterised by a dispersed settlement pattern . Our communities are equally diverse having strong local identities and traditions . A clear division between town and villages should be kept."

NPPF — 77.3 " where a green space is demonstrably special to a local community and hold a particular local

significance, historic significance, richness in wildlife. It should not be considered for development .

When the recent Community Governance Review was undertaken it was agreed that the two fields which comprise this application would be left in Budock Parish so as to form a clear division between Budock and Falmouth, specifically so that any possibility of coalescence would be avoided.

This site does not represent 'rounding off' or 'infill' as the Eve Parc development has a clearly defined boundary, this being a substantial Cornish Hedge where these fields abut to Eve Parc. These proposed houses would then constitute building in the countryside which is not in accordance with the NPPF.

There is no need for further affordable housing in Budock Parish as this will be amply provided by allocation on the Pen Bethan estate.

We therefore repeat that Budock Parish Council strongly object to this application.

On a vote being taken this was agreed unanimously
